

WATCHDOG

Guarding manufactured/mobile home owner rights

Ladies and Gentlemen,

As residents of this great country and state we have been caught up in the worldwide effect of fear in contracting the Coronavirus. Also, as seniors we have seen evidence that our ability to recover from any infection is lessened.

FMO will suspend all in-person meetings immediately until further notice. Your health is paramount to us and we will not put anyone at risk. Please pay attention to our leadership, medical experts and take the necessary steps to protect your families, but do not panic. This will end and life will go on.

Thank you for your energy and belief in FMO. Our best days are ahead.

God bless and take care.

Jerry Durham
